

Functional & Performance Testing Template

Model Performance Test

Date	3 October 2026
Team ID	
Project Name	Automated Network Request Management System
Maximum Marks	

Test Scenarios & Results

Test Case ID	Scenario (What to test)	Test Steps (How to test)	Expected Result	Actual Result	Pass/Fail
FT-01	Text input validation (Requested For, Mobile Number, Address)	1. Open the Network Request form in the Service Portal. 2. Enter valid text in Requested For, Mobile Number and Address.	Valid inputs accepted in all text fields	Requested For (system administrator), Mobile Number and Address accepted the entered values.	Pass
FT-02	Number input validation (Total Amount) and Mode of Payment	1. Enter a total amount (5000). 2. Select Mode of Payment (UPI / Card).	Amount accepted; payment mode selectable	Total Amount 5000 accepted and UPI selected without error.	Pass
FT-03	Request creation (Order Now)	1. Fill all fields. 2. Click Order Now.	Order Confirmation shown and request number generated	Order Confirmation displayed; Request Summary REQ0010004 created with stage Request Approval.	Pass
FT-04	Flow / automation check (Flow Designer)	1. Open the Network Request flow. 2. Check trigger and actions. 3. Verify emails for the requests.	Flow creates record, sends email, asks approval and updates record	Flow ran for REQ0010002, REQ0010003 and REQ0010004; 'was created' and 'was approved' emails generated.	Pass
PT-01	Response time test (request to notification)	Compare sys_email timestamps of the created and approved emails for REQ0010003.	Should be under 3 seconds	Created 02:55:14, approved 02:55:15 – about 1 second.	Pass
PT-02	Multiple request processing	Review the Emails log for REQ0010002, REQ0010003 and REQ0010004.	All requests processed without failure or slowdown	3 of 3 requests processed; 6 of 6 notifications generated (created + approved).	Pass

PT-03	HTML email rendering test	Open the approval email in sys_email and use Preview HTML Body.	Email renders request details correctly	Preview shows 'Your request was approved', requested item RITM0010003 and short description Network Request.	Pass
