

Project Development Phase Model Performance Test

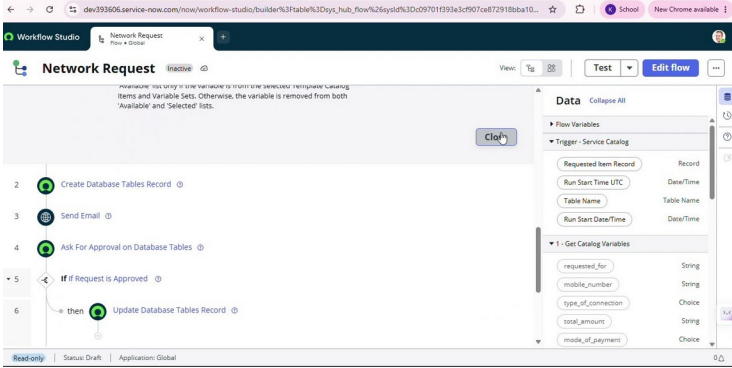

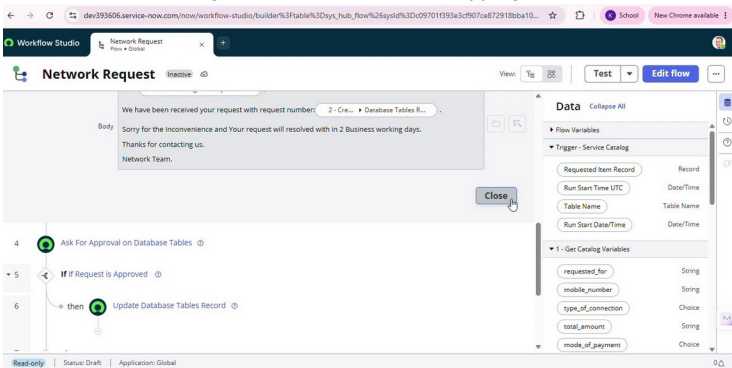

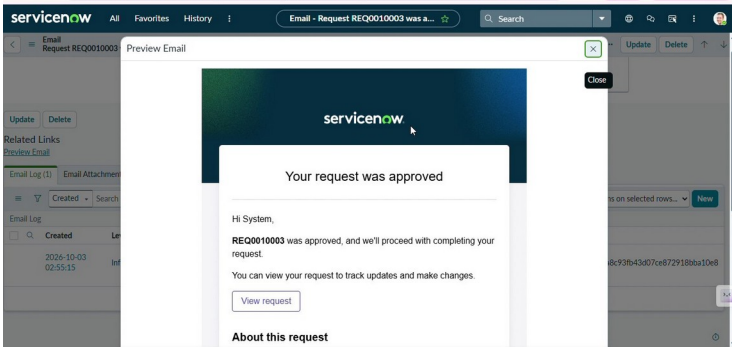

Date	3 October 2026
Team ID	
Project Name	Automated Network Request Management System
Maximum Marks	

Automation Performance Testing:

Project team has filled the following information in the performance testing template for the workflow automation layer (Flow Designer, approvals and email notifications) of the Network Request solution.

S.No.	Parameter	Screenshot / Values
1.	Data Rendered	When the employee clicks Order Now, an Order Confirmation is shown and the Request Summary page renders the new request (REQ0010004) with item Network Request, stage Request Approval, quantity 1 and estimated delivery date.  <i>Fig 1: Order Confirmation after Order Now</i>  <i>Fig 2: Request Summary rendered in the Service Portal</i>

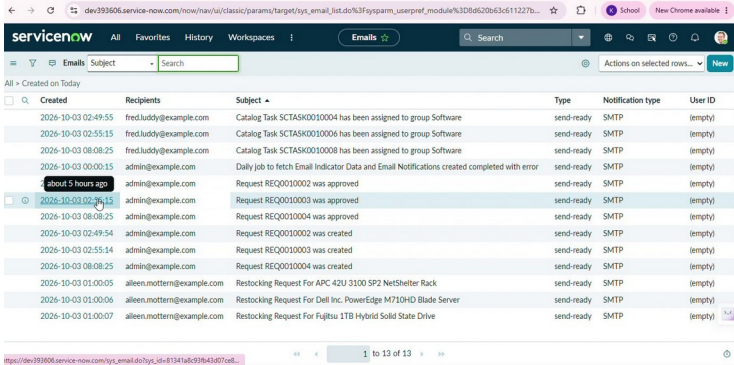

2.	Data Preprocessing	The 'Network Request' flow is triggered by the Service Catalog. Action 1 (Get Catalog Variables from Network Request) loads the submitted values (requested_for, mobile_number, type_of_connection, total_amount, mode_of_payment) as data pills for the following actions.  <i>Fig 3: Flow trigger and action list</i>
3.	Utilization of Data Filters	Approval filter: 'If Request is Approved' routes the record to the Update action for the Approved branch; the Else branch handles other outcomes. Verification filter: the sys_email list was filtered with 'Created on Today' and sorted by Subject to confirm that every request produced its notifications.  <i>Fig 4: Approved branch – Update Database Tables Record (Approval Status = Approved)</i>

4.	Flow Logic / Queries Used	Create Record on table Database Tables [u_database_tables] with fields Customer Address, Mobile Number, Mode of Payment, Total Amount, Type of Connection and Database Number (DAT prefix). Send Email action: subject 'Request <number> was created' with dynamic body (requested item number, request number, resolution within 2 business working days).  <i>Fig 5: Create Record field mapping</i>  <i>Fig 6: Send Email action configuration</i>
5.	Notification design	No of automated emails per request - 2: 'Request REQ... was created' and 'Request REQ... was approved'. Emails are dynamic HTML with request number, RITM number and short description (Network Request), sent through sys_email.  <i>Fig 7: Approval email preview (Your request was approved)</i>

6

Request tracking report

No of test requests tracked - 3 (REQ0010002, REQ0010003, REQ0010004). All 3 show a 'was created' and a 'was approved' email in the Emails log (6 of 6 notifications generated, type send-ready, SMTP).

Created	Recipients	Subject	Type	Notification type	User ID
2026-10-03 02:49:55	fred.luddy@example.com	Catalog Task SCTASK0010004 has been assigned to group Software	send-ready	SMTP	(empty)
2026-10-03 02:55:15	fred.luddy@example.com	Catalog Task SCTASK0010006 has been assigned to group Software	send-ready	SMTP	(empty)
2026-10-03 08:08:25	fred.luddy@example.com	Catalog Task SCTASK0010008 has been assigned to group Software	send-ready	SMTP	(empty)
2026-10-03 00:00:15	admin@example.com	Daily job to fetch Email Indicator Data and Email Notifications created completed with error	send-ready	SMTP	(empty)
2026-10-03 08:08:25	admin@example.com	Request REQ0010002 was approved	send-ready	SMTP	(empty)
2026-10-03 08:08:25	admin@example.com	Request REQ0010003 was approved	send-ready	SMTP	(empty)
2026-10-03 08:08:25	admin@example.com	Request REQ0010004 was approved	send-ready	SMTP	(empty)
2026-10-03 02:49:54	admin@example.com	Request REQ0010002 was created	send-ready	SMTP	(empty)
2026-10-03 02:55:14	admin@example.com	Request REQ0010003 was created	send-ready	SMTP	(empty)
2026-10-03 08:08:25	admin@example.com	Request REQ0010004 was created	send-ready	SMTP	(empty)
2026-10-03 01:00:05	alleen.mottern@example.com	Restocking Request For APC 42U 3100 SP2 NetShelter Rack	send-ready	SMTP	(empty)
2026-10-03 01:00:06	alleen.mottern@example.com	Restocking Request For Dell Inc. PowerEdge M710HD Blade Server	send-ready	SMTP	(empty)
2026-10-03 01:00:07	alleen.mottern@example.com	Restocking Request For Fujitsu ITB Hybrid Solid State Drive	send-ready	SMTP	(empty)
